FIGHT FRAUD with SHAZAM BOLT\$

You know your spending habits better than anyone else!

Enjoy having control over your DCCU cards.

With the new transaction-level blocks in SHAZAM BOLT\$, you can leverage both of these facts and put SHAZAM to work to fight fraud!

Using SHAZAM BOLT\$, you can set your own blocks for three transaction types:

- Transactions over a specific dollar amount
- Internet and phone transactions
- Transactions outside the U.S.

If a block is in place, transactions will be declined on the spot. You will receive an alert each time an attempted transaction is blocked.

Card Block Feature

The transaction control feature also allows you to place a temporary card block if your card goes missing. With the quick tap of a button you can pause your account without affecting previous transactions.

You can remove the block if your card is found.
